Dear Parents/Guardians,

KooBits ProblemSums Subscriptions

The school recently subscribed to KooBits ProblemSums as an additional Mathematics learning resource for all our students. This is a self-directed online Mathematics learning portal which is designed to help your child/ward progress in terms of problem solving and heuristics skills. Some of the benefits of the portal include addressing the child's weaknesses in Mathematics through individually customized Mathematics questions to match the child's abilities. There are also engaging Mathematics challenges and other Mathematics related activities to motivate the child. This portal is accessible on PC, Mac, iPad, Android or any tablets with Internet connection.

Parents and teachers alike are able to assign homework to the child and monitor their progress through reports.

The steps for assigning homework to your child/ward is as below:

- Log in to your child/ward's account
- Click **Parent Register** on **top navigation** to register for new homework email notification
- Click **Report** on **top navigation** to monitor performance and skill proficiency

Your child/ward will be able to complete self-practice, homework, quizzes and get engaged via peer challenges and fun daily activities to earn points and win prizes through this portal. You may check out more about the portal via the website www.koobits.com.

Your child/ward has already been given his/her personalized Login ID/password by his/her Mathematics teacher.

Please find the login details below:

Login address: <http://problemsums.koobits.com>

The default ID and password are set in the following format:

PGPS + Last 4 characters of BC number (3 digits & 1 letter of the alphabet)

For example, for a student with BC number T1023456A, **Login ID and password: PGPS456A**

Do encourage your child/ward to make full use of the portal for independent and self-directed learning at home.

Please feel free to approach your child/ward's Mathematics teacher should you need further clarifications about the portal.

In the event that technical assistance is required, please contact Team KooBits at 6873 2370 or support@koobits.com.

Thank you.

Mrs Seah Lay Tin
Principal
